

ssDNA (DAG-WT1910)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	Unconjugated
Applications	Immunoassays
Format	Liquid
Size	1 mg
Buffer	10 mM PBS, pH 7.4
Preservative	None
Storage	Store at -20°C
Ship	Wet ice

BACKGROUND

Introduction	It is a single linear strand of nucleic acid sequence. They do not have hydrogen bonds, and are thus less stiff and also less stable. The ssDNA is found abundantly in viruses of extreme conditions and marine environments.
Keywords	Single Stranded DNA; ssDNA; DNA (Single Stranded); DNA
