

## Trazadone, HRP conjugate

DAG1323

Lot. No. (See product label)

### PRODUCT INFORMATION

<b>Product overview</b>	Trazadone, HRP conjugate
<b>Antigen Description</b>	Trazodone is a serotonin uptake inhibitor that is used as an antidepressive agent. It has been shown to be effective in patients with major depressive disorders and other subsets of depressive disorders. It is generally more useful in depressive disorders associated with insomnia and anxiety. This drug does not aggravate psychotic symptoms in patients with schizophrenia or schizoaffective disorders.
<b>Source</b>	Antidepressants
<b>Conjugate</b>	HRP
<b>Form</b>	concentrate
<b>Characteristic</b>	Each conjugate comprises antigen covalently bound to horseradish peroxide and is suitable as a tracer in immunoassay development

### PACKAGING

<b>Storage</b>	Can be stored at 2-8°C for up to 3 months and at -20°C for longer term storage.
----------------	---

### BACKGROUND

<b>Introduction</b>	Trazodone is an antidepressant of the serotonin antagonist and reuptake inhibitor (SARI) class. It is a phenylpiperazine compound. Trazodone also has anxiolytic and hypnotic effects. Trazodone has considerably fewer prominent anticholinergic (dry mouth, constipation, tachycardia) and sexual side effects than most of the tricyclic antidepressants.
<b>Keywords</b>	Trazodone; Desyrel; Oleptro; Beneficat; Deprax; Desirel; Molipaxin; Thombran; Trazorel; Trialodine; Trittico; Mesyrel; 2-[3-[4-(3-chlorophenyl)piperazin-1-yl]propyl][1,2,4]triazolo[4,3-a]pyridin-3(2H)-one
