

Dextropropoxyphene, HRP-Conjugated

DAG3022

Lot. No. (See product label)

PRODUCT INFORMATION

Product overview	Dextropropoxyphene, HRP-Conjugated
Description	Propoxyphene horseradish peroxidase conjugate
Position	Propoxyphene homolog
Conjugate	HRP
Form	1:1 glycerol / 0.015 M phosphate, 0.15 M NaCl, pH: 7.2
Applications	immunoassay development or other applications.
Usage	For Research Use Only. Not intended for diagnostic use. Suitable for use in immunoassay development or other applications.

PACKAGING

Storage	Store at -20°C.
Concentration	1.0 mg/ml

BACKGROUND

Introduction	Propoxyphene is an analgesic in the opioid category that is used to treat severe pain and severe coughs. It can be used to ease pain before, during and after an operation. It is often combined with acetaminophen in the preparation co-proxamol. Propoxyphene is related to methadone but less addictive.
Keywords	Dextropropoxyphene; Antalvic; Depromic; Dolene; Femadol; Proxagesic; Propoxyphene; Algafan
