

## 5-Hydroxy-Indole, BSA-conjugated

Cat.No: DAG3257

Lot. No. (See product label)

### PRODUCT INFORMATION

<b>Product overview</b>	5-Hydroxy-Indole, BSA-conjugated
<b>Description</b>	5-Hydroxy-Indole, conjugated
<b>Species</b>	chemosynthetic
<b>Specificity</b>	5-Hydroxy-Indole conjugated with formaldehyde (F) and bovine serum albumin (BSA).
<b>Conjugate</b>	BSA
<b>Form</b>	Lyophilized (1 mg); Lyophilized and reconstituted in deionized water (250 µg)
<b>Applications</b>	immunohistochemistry and immunocytochemistry
<b>Usage</b>	The antigen was used to produce a rabbit polyclonal antibody.
<b>Quality Control Test</b>	250 micrograms, 1 milligram
<b>Storage</b>	Store at -20°C for one year or +4°C for 2 months. Reconstitute with pure water + 0.1% merthiolate (optional preservative). For a better solubility, the addition of some drops (5-10 µl) of NaOH 1N can be necessary.
