

Recombinant YFV Envelope protein [His] (DAGA-3030)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Purity > 80% Purity. Multi-step procedure including affinity chromatography. Conjugate His Applications Not determined yet. Each laboratory should determine an optimum working titer for use in its particular application. Other applications have not been tested but use in such assays should not necessarily be excluded. Molecular Weight 50 kDa Format Purified Concentration Batch dependent - please inquire should you have specific requirements. Size 100 μg Buffer Phosphate Buffered Saline, pH 7.4 Preservative 0.09% Sodium Azide Storage Store at -20°C. For long term storage, aliquot and store at -20°C to avoid multiple freeze/thaw cycles.	Product Overview	Yellow Fever Envelope Recombinant Product contains a His-Tag.
