

# Recombinant EBV gp350/220 (RBD, a.a. 4-450) [His] (DAGA-3072)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

|                         |                                                                                                                                                                                                                                                                                |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | C-terminal 6xHis tagged gp350/220 (RBD/(a.a.4-450))(EBV) (a.a.4-450) (Genebank #: AHA36359). The receptor binding region of the gp350 protein.                                                                                                                                 |
| <b>Purity</b>           | >=95%                                                                                                                                                                                                                                                                          |
| <b>Conjugate</b>        | His                                                                                                                                                                                                                                                                            |
| <b>Applications</b>     | WB standard, antibody ELISA, immunogen, etc                                                                                                                                                                                                                                    |
| <b>Format</b>           | Each vial contains 100 µg of purified protein (1 mg/ml) in PBS                                                                                                                                                                                                                 |
| <b>Concentration</b>    | Batch dependent - please inquire should you have specific requirements.                                                                                                                                                                                                        |
| <b>Size</b>             | 100 µg                                                                                                                                                                                                                                                                         |
| <b>Storage</b>          | Keep it at 4 centigrade if used within a month. For long term storage, split it into small aliquots and keep at -80 centigrade. Avoid repeated freezing and thawing. The product will be expired one year after receiving if stored properly. Non-hazardous. No MSDS required. |
