

# Mycophenolic Acid [HRP] (DAGB317)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

<b>Specificity</b>	Each conjugate comprises antigen covalently bound to horseradish peroxidase and is suitable as a tracer in immunoassay development.
<b>Species</b>	N/A
<b>Conjugate</b>	HRP
<b>Applications</b>	IA
<b>Format</b>	The conjugate is supplied as a concentrate. Dilute as required and use working strength conjugate immediately after dilution
<b>Size</b>	0.5 ml
<b>Preservative</b>	None
<b>Storage</b>	2 - 8°C for up to 3 months / -20°C for long term storage

## BACKGROUND

<b>Introduction</b>	Mycophenolic Acid (MPA) is an immunosuppressive agent with antitumor and antiviral effects. It inhibits the synthesis of guanosine nucleotides by binding the enzyme inosine monophosphate dehydrogenase (IMPDH). This limits the proliferation of T- and B-lymphocytes.
