

# DiagPoly™ Plain Fluorescent Polystyrene Particles, Sky Blue, 0.4-0.6 µm

Cat.No: DNM-L020

## DESCRIPTION

|                    |                                                                                                             |
|--------------------|-------------------------------------------------------------------------------------------------------------|
| <b>Description</b> | Plain Fluorescent PS Particles, Sky Blue, 0.4-0.6 µm, 1.0% w/v, dispersed in DI water, analytical standard. |
|--------------------|-------------------------------------------------------------------------------------------------------------|

## APPLICATION

|                          |                                                                                                                                         |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application Notes</b> | Cell sorting, immunoprecipitation, biosensing, in vivo and in vitro sensor, coating materials for contrast agents and anti-cancer drugs |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|

## PRODUCT INFORMATION

|                 |            |
|-----------------|------------|
| <b>Diameter</b> | 0.4-0.6 µm |
|-----------------|------------|

|                         |       |
|-------------------------|-------|
| <b>Functional Group</b> | Plain |
|-------------------------|-------|

|                      |          |
|----------------------|----------|
| <b>Concentration</b> | 1.0% w/v |
|----------------------|----------|

## STORAGE AND SHIPPING

|                       |                                           |
|-----------------------|-------------------------------------------|
| <b>Storage Buffer</b> | Supplied in bottle, dispersed in DI water |
|-----------------------|-------------------------------------------|

|                |                                              |
|----------------|----------------------------------------------|
| <b>Storage</b> | Room temperature in the dark. Do not freeze. |
|----------------|----------------------------------------------|

|                   |                                                                       |
|-------------------|-----------------------------------------------------------------------|
| <b>Shelf Life</b> | When stored as specified the product is stable for at least 6 months. |
|-------------------|-----------------------------------------------------------------------|

## TECHNOTES

**TECHNOTES**

To achieve optimum particle suspension, resuspend by vortexing before use.
