

DiagNano™ PEG-NH2 CdSeTe/ZnS Quantum Dots, 760 nm

Cat.No: DNP-X134

DESCRIPTION

Description	PEG-NH2 functionalized CdSeTe/ZnS core/shell quantum dots, supplied in DI water, 760 nm peak emission. FWHM (nm): ≤ 80 nm.
--------------------	---

PRODUCT INFORMATION

Functional Group	Amine
-------------------------	-------

Emission Max	760 ± 10 nm
---------------------	-----------------

Quantum Yield	$\geq 30\%$
----------------------	-------------

STORAGE AND SHIPPING

Storage Buffer	DI water
-----------------------	----------

Storage	Store product away from direct sunlight at 4°C. Do NOT freeze.
----------------	--

Shelf Life	2 Weeks
-------------------	---------
