# MOUSE GLP-2 ELISA KIT

## Catalog number

Mouse GLP-2 ELISA Kit.....81514

## Intended use

A high quality enzyme immunoassay for the quantification of mouse GLP-2 in serum and plasma.

## Test principle

Crystal Chem’s Mouse GLP-2 ELISA kit is an enzyme-linked immunosorbent assay based on the principle of competitive binding. An unknown amount of GLP-2 present in the sample and a defined amount of enzyme linked GLP-2 compete for the binding sites on the microplate. After a wash step, a substrate solution is added, and the concentration of GLP-2 is determined.
