

# EFHD1 Monoclonal Antibody

|                            |                                                                                   |
|----------------------------|-----------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-MA000243                                                                      |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                     |
| <b>Uniprot No.</b>         | Q9BUP0                                                                            |
| <b>Immunogen</b>           | Synthetic Peptide                                                                 |
| <b>Raised In</b>           | Mouse                                                                             |
| <b>Species Reactivity</b>  | Human,Mouse,Rat                                                                   |
| <b>Tested Applications</b> | ELISA,WB,IHC,IF;Recommended dilution:WB:1:500-1:5000,IHC:1:50-1:500,IF:1:50-1:200 |
| <b>Form</b>                | Liquid                                                                            |
| <b>Conjugate</b>           | Non-conjugated                                                                    |
| <b>Storage Buffer</b>      | PBS, pH 7.4, containing 0.02% sodium azide as Preservative and 50% Glycerol.      |
| <b>Isotype</b>             | IgG                                                                               |
| <b>Alias</b>               | EF-hand domain-containing protein D1                                              |
| <b>Product Type</b>        | Monoclonal Antibody                                                               |
| <b>Species</b>             | Homo sapiens (Human)                                                              |
| <b>Gene Names</b>          | EFHD1                                                                             |

## Image

IF analysis of HeLa with antibody (Left) and DAPI (Right) diluted at 1:100.

Western blot analysis of 1) Mouse spleen tissue, 2) Rat spleen tissue, diluted at 1:3000.
