

# tuf1 Antibody

|                     |                                                                                                                           |
|---------------------|---------------------------------------------------------------------------------------------------------------------------|
| Product Code        | CSB-PA025342LA01AUD                                                                                                       |
| Abbreviation        | Elongation factor Tu                                                                                                      |
| Storage             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                             |
| Uniprot No.         | A3M1F6                                                                                                                    |
| Immunogen           | Recombinant Acinetobacter baumannii Elongation factor Tu protein (1-396AA)                                                |
| Raised In           | Rabbit                                                                                                                    |
| Species Reactivity  | Acinetobacter baumannii                                                                                                   |
| Tested Applications | ELISA                                                                                                                     |
| Relevance           | This protein promotes the GTP-dependent binding of aminoacyl-tRNA to the A-site of ribosomes during protein biosynthesis. |
| Form                | Liquid                                                                                                                    |
| Conjugate           | Non-conjugated                                                                                                            |
| Storage Buffer      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                          |
| Purification Method | >95%, Protein G purified                                                                                                  |
| Isotype             | IgG                                                                                                                       |
| Clonality           | Polyclonal                                                                                                                |
| Alias               | Elongation factor Tu (EF-Tu), tuf1; tuf2                                                                                  |
| Species             | Acinetobacter baumannii (strain ATCC 17978 / CIP 53.77 / LMG 1025 / NCDC KC755 / 5377)                                    |
| Research Area       | Others                                                                                                                    |
| Target Names        | tuf1                                                                                                                      |
