

# ZNF397 Antibody

|                            |                                                                                                                             |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA026720LA01HU                                                                                                          |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                               |
| <b>Uniprot No.</b>         | Q8NF99                                                                                                                      |
| <b>Immunogen</b>           | Recombinant Human Zinc finger protein 397 protein (1-275AA)                                                                 |
| <b>Raised In</b>           | Rabbit                                                                                                                      |
| <b>Species Reactivity</b>  | Human                                                                                                                       |
| <b>Tested Applications</b> | ELISA, IHC; Recommended dilution: IHC:1:20-1:200                                                                            |
| <b>Relevance</b>           | Isoform 3 acts as a DNA-dependent transcriptional repressor.                                                                |
| <b>Form</b>                | Liquid                                                                                                                      |
| <b>Conjugate</b>           | Non-conjugated                                                                                                              |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                            |
| <b>Purification Method</b> | Antigen Affinity Purified                                                                                                   |
| <b>Isotype</b>             | IgG                                                                                                                         |
| <b>Clonality</b>           | Polyclonal                                                                                                                  |
| <b>Alias</b>               | Zinc finger protein 397 (Zinc finger and SCAN domain-containing protein 15) (Zinc finger protein 47), ZNF397, ZNF47 ZSCAN15 |
| <b>Species</b>             | Human                                                                                                                       |
| <b>Research Area</b>       | Epigenetics and Nuclear Signaling                                                                                           |
| <b>Target Names</b>        | ZNF397                                                                                                                      |
