| <b>Tested Applications</b> | ELISA,WB;ELISA:1:2000-1:10000,WB:1:500-1:2000                                                                                                                                                                                                                                    |
| <b>Relevance</b>           | Ras-related protein Rab-5A is a protein that in humans is encoded by the RAB5A gene.It is rate-limiting for homotypic early endosome fusion. It required for the fusion of plasma membranes and early endosomes,as well as contributes to the regulation of filopodia extension. |
| <b>Form</b>                | Liquid                                                                                                                                                                                                                                                                           |
| <b>Conjugate</b>           | Non-conjugated                                                                                                                                                                                                                                                                   |
| <b>Storage Buffer</b>      | -20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol                                                                                                                                                                                                                                       |
| <b>Purification Method</b> | Antigen affinity purification                                                                                                                                                                                                                                                    |
| <b>Isotype</b>             | IgG                                                                                                                                                                                                                                                                              |
| <b>Species</b>             | Homo sapiens (Human)                                                                                                                                                                                                                                                             |
| <b>Target Names</b>        | RAB5A                                                                                                                                                                                                                                                                            |
