HOXB1 Antibody

Storage Upon receipt, store at -20°C or -80°C. Avoid repeated freeze. Uniprot No. P14653 Immunogen Fusion protein of Human HOXB1 Raised In Rabbit Species Reactivity Human Tested Applications ELISA,IHC;ELISA:1:1000-1:5000,IHC:1:40-1:150 Relevance This gene belongs to the homeobox family of genes. The homeobox genes encode a highly conserved family of transcription factors that play an important role in morphogenesis in all multicellular organisms. Mammals possess four similar homeobox gene clusters, HOXA, HOXB, HOXC and HOXD, located on different chromosomes, consisting of 9 to 11 genes arranged in tandem. This gene is one of several homeobox HOXB genes located in a cluster on chromosome 17. Form Liquid Conjugate Non-conjugated Storage Buffer -20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol Purification Method Antigen affinity purification	Product Code	CSB-PA064404
