

# ARNT Antibody

|                            |                                                                              |
|----------------------------|------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA080154                                                                 |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                |
| <b>Uniprot No.</b>         | P27540                                                                       |
| <b>Immunogen</b>           | Recombinant Protein                                                          |
| <b>Raised In</b>           | Rabbit                                                                       |
| <b>Species Reactivity</b>  | Human,Mouse,Rat                                                              |
| <b>Tested Applications</b> | WB,IHC;WB:1:1000-2000.IHC:1:200-500                                          |
| <b>Form</b>                | Liquid                                                                       |
| <b>Conjugate</b>           | Non-conjugated                                                               |
| <b>Storage Buffer</b>      | PBS, pH 7.4, containing 0.02% sodium azide as Preservative and 50% Glycerol. |
| <b>Isotype</b>             | IgG                                                                          |
| <b>Alias</b>               | Aryl hydrocarbon receptor nuclear translocator                               |
| <b>Species</b>             | Homo sapiens (Human)                                                         |
| <b>Target Names</b>        | ARNT                                                                         |

## Image

Immunohistochemical analysis of paraffin-embedded human Tonsil Tissue using HIF-1 $\beta$  Polyclonal Antibody.

Western blot analysis of 1) Mouse Brain, 2) Rat Brain using HIF-1 $\beta$  Polyclonal Antibody.
