

INHA Antibody, Biotin conjugated

Product Code	CSB-PA11599D0Rb
Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Uniprot No.	P05111
Immunogen	Recombinant Human Inhibin alpha chain protein (233-366AA)
Raised In	Rabbit
Species Reactivity	Human
Tested Applications	ELISA
Relevance	Inhibins and activins inhibit and activate, respectively, the secretion of follitropin by the pituitary gland. Inhibins/activins are involved in regulating a number of diverse functions such as hypothalamic and pituitary hormone secretion, gonadal hormone secretion, germ cell development and maturation, erythroid differentiation, insulin secretion, nerve cell survival, embryonic axial development or bone growth, depending on their subunit composition. Inhibins appear to oppose the functions of activins.
Form	Liquid
Conjugate	Biotin
Storage Buffer	Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
Purification Method	>95%, Protein G purified
Isotype	IgG
Clonality	Polyclonal
Alias	Inhibin alpha chain, INHA
Species	Homo sapiens (Human)
Research Area	Signal Transduction
Target Names	INHA
