

# CANT1 Antibody

|                     |                                                                                                                                                                                     |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Code        | CSB-PA13099A0Rb                                                                                                                                                                     |
| Storage             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                                                                       |
| Uniprot No.         | Q8WVQ1                                                                                                                                                                              |
| Immunogen           | Recombinant Human Soluble calcium-activated nucleotidase 1 protein (80-397AA)                                                                                                       |
| Raised In           | Rabbit                                                                                                                                                                              |
| Species Reactivity  | Human                                                                                                                                                                               |
| Tested Applications | ELISA                                                                                                                                                                               |
| Form                | Liquid                                                                                                                                                                              |
| Conjugate           | Non-conjugated                                                                                                                                                                      |
| Storage Buffer      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                                                                                    |
| Purification Method | >95%, Protein G purified                                                                                                                                                            |
| Isotype             | IgG                                                                                                                                                                                 |
| Clonality           | Polyclonal                                                                                                                                                                          |
| Alias               | Soluble calcium-activated nucleotidase 1 (SCAN-1) (EC 3.6.1.6) (Apyrase homolog) (Putative MAPK-activating protein PM09) (Putative NF-kappa-B-activating protein 107), CANT1, SHAPY |
| Species             | Homo sapiens (Human)                                                                                                                                                                |
| Research Area       | Epigenetics and Nuclear Signaling                                                                                                                                                   |
| Target Names        | CANT1                                                                                                                                                                               |
