

# cagA Antibody, HRP conjugated

|                            |                                                                                                                         |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA14367B0Rb                                                                                                         |
| <b>Abbreviation</b>        | Cytotoxicity-associated immunodominant antigen protein                                                                  |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                           |
| <b>Uniprot No.</b>         | P55980                                                                                                                  |
| <b>Immunogen</b>           | Recombinant Helicobacter pylori Cytotoxicity-associated immunodominant antigen protein (1-294AA)                        |
| <b>Raised In</b>           | Rabbit                                                                                                                  |
| <b>Species Reactivity</b>  | Helicobacter pylori                                                                                                     |
| <b>Tested Applications</b> | ELISA                                                                                                                   |
| <b>Relevance</b>           | May be necessary for the transcription, folding, export, or function of the cytotoxin.                                  |
| <b>Form</b>                | Liquid                                                                                                                  |
| <b>Conjugate</b>           | HRP                                                                                                                     |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                        |
| <b>Purification Method</b> | >95%, Protein G purified                                                                                                |
| <b>Isotype</b>             | IgG                                                                                                                     |
| <b>Clonality</b>           | Polyclonal                                                                                                              |
| <b>Alias</b>               | Cytotoxicity-associated immunodominant antigen (120 kDa protein) (CAG pathogenicity island protein 26), cagA, cag26 cai |
| <b>Species</b>             | Helicobacter pylori (strain ATCC 700392 / 26695) (Campylobacter pylori)                                                 |
| <b>Research Area</b>       | Others                                                                                                                  |
| <b>Target Names</b>        | cagA                                                                                                                    |
