

Mup11 Antibody, HRP conjugated

Product Code	CSB-PA361419LB01MO
Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Uniprot No.	P04938
Immunogen	Recombinant Mouse Major urinary protein 11 protein (1-151AA)
Raised In	Rabbit
Species Reactivity	Mouse
Tested Applications	ELISA
Relevance	Major urinary proteins (Mups) bind pheromones, and thus stabilize them to allow slow release into the air from urine marks. May protect pheromones from oxidation. May also act as pheromones themselves. In this context, they play a role in the regulation of social behaviors, such as aggression, mating, pupsuckling, territory establishment and dominance (Probable). Binds the pheromone analog 2-sec-butyl-4,5-dihydrothiazole (SBT) in vitro (PubMed:25279835).
Form	Liquid
Conjugate	HRP
Storage Buffer	Preservative: 0.03% Proclin 300
	Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
Purification Method	Constituents: 50% Glycerol, 0.01M PBS, PH 7.4 >95%, Protein G purified
Purification Method	
	>95%, Protein G purified
Isotype	>95%, Protein G purified
Isotype Clonality	>95%, Protein G purified IgG Polyclonal
Isotype Clonality Alias	>95%, Protein G purified IgG Polyclonal Major urinary protein 11, Mup11, Mup9
