

AGT Antibody

Product Code	CSB-PA693559
Storage	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
Uniprot No.	P01019
Immunogen	Synthetic peptide of Human AGT
Raised In	Rabbit
Species Reactivity	Human,Mouse,Rat
Tested Applications	ELISA,WB,IHC;ELISA:1:2000-1:5000,WB:1:1000-1:5000,IHC:1:25-1:100
Relevance	The protein encoded by this gene, pre-angiotensinogen or angiotensinogen precursor, is expressed in the liver and is cleaved by the enzyme renin in response to lowered blood pressure. The resulting product, angiotensin I, is then cleaved by angiotensin converting enzyme (ACE) to generate the physiologically active enzyme angiotensin II. The protein is involved in maintaining blood pressure and in the pathogenesis of essential hypertension and preeclampsia. Mutations in this gene are associated with susceptibility to essential hypertension, and can cause renal tubular dysgenesis, a severe disorder of renal tubular development. Defects in this gene have also been associated with non-familial structural atrial fibrillation, and inflammatory bowel disease.
Form	Liquid
Conjugate	Non-conjugated
Storage Buffer	-20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol
Purification Method	Antigen affinity purification
Isotype	IgG
Species	Homo sapiens (Human)
Target Names	AGT

Image

The image on the left is immunohistochemistry of paraffin-embedded Human lung cancer tissue using CSB-PA693559(AGT Antibody) at dilution 1/50, on the right is treated with synthetic peptide. (Original magnification: ×200)

Gel: 10%SDS-PAGE, Lysate: 40 μ g, Lane:
Human liver cancer tissue, Primary antibody:
CSB-PA693559(AGT Antibody) at dilution
1/1100, Secondary antibody: Goat anti rabbit IgG
at 1/8000 dilution, Exposure time: 5 minutes
