

# DENND5A Antibody, FITC conjugated

|                     |                                                                                                                                                                                                               |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Code        | CSB-PA757108LC01HU                                                                                                                                                                                            |
| Storage             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                                                                                                 |
| Uniprot No.         | Q6IQ26                                                                                                                                                                                                        |
| Immunogen           | Recombinant Human DENN domain-containing protein 5A protein (1-300AA)                                                                                                                                         |
| Raised In           | Rabbit                                                                                                                                                                                                        |
| Species Reactivity  | Human                                                                                                                                                                                                         |
| Tested Applications | ELISA                                                                                                                                                                                                         |
| Relevance           | Guanine nucleotide exchange factor (GEF) which may activate RAB6A and RAB39A and/or RAB39B. Promotes the exchange of GDP to GTP, converting inactive GDP-bound Rab proteins into their active GTP-bound form. |
| Form                | Liquid                                                                                                                                                                                                        |
| Conjugate           | FITC                                                                                                                                                                                                          |
| Storage Buffer      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                                                                                                              |
| Purification Method | >95%, Protein G purified                                                                                                                                                                                      |
| Isotype             | IgG                                                                                                                                                                                                           |
| Clonality           | Polyclonal                                                                                                                                                                                                    |
| Alias               | DENN domain-containing protein 5A (Rab6-interacting protein 1) (Rab6IP1), DENND5A, KIAA1091 RAB6IP1                                                                                                           |
| Species             | Homo sapiens (Human)                                                                                                                                                                                          |
| Research Area       | Signal Transduction                                                                                                                                                                                           |
| Target Names        | DENND5A                                                                                                                                                                                                       |
