

# ZNRD1 Antibody, FITC conjugated

|                            |                                                                                                                                                                                                               |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA885791HC01HU                                                                                                                                                                                            |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                                                                                                 |
| <b>Uniprot No.</b>         | Q9P1U0                                                                                                                                                                                                        |
| <b>Immunogen</b>           | Recombinant Human DNA-directed RNA polymerase I subunit RPA12 protein (1-126AA)                                                                                                                               |
| <b>Raised In</b>           | Rabbit                                                                                                                                                                                                        |
| <b>Species Reactivity</b>  | Human                                                                                                                                                                                                         |
| <b>Tested Applications</b> | ELISA                                                                                                                                                                                                         |
| <b>Relevance</b>           | DNA-dependent RNA polymerase catalyzes the transcription of DNA into RNA using the four ribonucleoside triphosphates as substrates. Component of RNA polymerase I which synthesizes ribosomal RNA precursors. |
| <b>Form</b>                | Liquid                                                                                                                                                                                                        |
| <b>Conjugate</b>           | FITC                                                                                                                                                                                                          |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                                                                                                              |
| <b>Purification Method</b> | >95%, Protein G purified                                                                                                                                                                                      |
| <b>Isotype</b>             | IgG                                                                                                                                                                                                           |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                                                                    |
| <b>Alias</b>               | DNA-directed RNA polymerase I subunit RPA12 (Zinc ribbon domain-containing protein 1), ZNRD1, RPA12                                                                                                           |
| <b>Species</b>             | Human                                                                                                                                                                                                         |
| <b>Research Area</b>       | Epigenetics and Nuclear Signaling                                                                                                                                                                             |
| <b>Target Names</b>        | ZNRD1                                                                                                                                                                                                         |
