| Abbreviation         | IgA                                                                                                                                                                                                                        |
| Product Type         | ELISA Kit                                                                                                                                                                                                                  |
| Immunogen Species    | Ovis aries (Sheep)                                                                                                                                                                                                         |
| Assay Time           | 1-5h                                                                                                                                                                                                                       |
| Sample Volume        | 50-100ul                                                                                                                                                                                                                   |
| Detection Wavelength | 450 nm                                                                                                                                                                                                                     |
| Lead Time            | 3-5 working days after you place the order, and it takes another 3-5 days for delivery via DHL or FedEx.                                                                                                                   |
| Research Area        | Immunology                                                                                                                                                                                                                 |
| Tag Info             | quantitative                                                                                                                                                                                                               |
| Protein Description  | Competitive                                                                                                                                                                                                                |
| Description          | This Sheep IgA ELISA Kit was designed for the quantitative measurement of Sheep IgA protein in serum, plasma. It is a Competitive ELISA kit, its detection range is 3.75 µg/mL-60 µg/mL and the sensitivity is 1.87 µg/mL. |
| Product Precision    |                                                                                                                                                                                                                            |
| Linearity            |                                                                                                                                                                                                                            |
| Recovery             |                                                                                                                                                                                                                            |
| Typical              |                                                                                                                                                                                                                            |
