| <b>Species Reactivity</b>  | Human                                                                                                                                                                                                                                                                |
| <b>Tested Applications</b> | ELISA, WB                                                                                                                                                                                                                                                            |
| <b>Storage Buffer</b>      | PBS with 0.1% Sodium Azide, 50% Glycerol, pH 7.3. -20°C, Avoid freeze / thaw cycles.                                                                                                                                                                                 |
| <b>Purification Method</b> | Antigen Affinity purified                                                                                                                                                                                                                                            |
| <b>Isotype</b>             | IgG                                                                                                                                                                                                                                                                  |
| <b>Alias</b>               | protein tyrosine phosphatase, receptor type, C-associated protein; PTPRCAP; CD45-AP; LPAP; MGC138602; MGC138603 ;                                                                                                                                                    |
| <b>Product Type</b>        | Purified Rabbit Anti Human PolyClonal Antibody                                                                                                                                                                                                                       |
| <b>Immunogen Species</b>   | Homo sapiens (Human)                                                                                                                                                                                                                                                 |
| <b>Target Names</b>        | PTPRCAP                                                                                                                                                                                                                                                              |
| <b>Target Details</b>      | This protein was identified as a transmembrane phosphoprotein specifically associated with tyrosine phosphatase PTPRC/CD45, a key regulator of T- and B-lymphocyte activation. The interaction with PTPRC may be required for the stable expression of this protein. |
