

# AVP Antibody

|                            |                                                                                                                                                              |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA11069A0Rb                                                                                                                                              |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                                                |
| <b>Uniprot No.</b>         | P01185                                                                                                                                                       |
| <b>Immunogen</b>           | Recombinant Human Vasopressin-neurophysin 2-copeptin protein (126-164AA)                                                                                     |
| <b>Raised In</b>           | Rabbit                                                                                                                                                       |
| <b>Species Reactivity</b>  | Human, Rat                                                                                                                                                   |
| <b>Tested Applications</b> | ELISA, WB, IHC; Recommended dilution: WB:1:500-1:5000, IHC:1:20-1:200                                                                                        |
| <b>Form</b>                | Liquid                                                                                                                                                       |
| <b>Conjugate</b>           | Non-conjugated                                                                                                                                               |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                                                             |
| <b>Purification Method</b> | >95%, Protein G purified                                                                                                                                     |
| <b>Isotype</b>             | IgG                                                                                                                                                          |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                   |
| <b>Alias</b>               | Vasopressin-neurophysin 2-copeptin (AVP-NPII) [Cleaved into: Arg-vasopressin (Arginine-vasopressin); Neurophysin 2 (Neurophysin-II); Copeptin], AVP, ARVP VP |
| <b>Immunogen Species</b>   | Homo sapiens (Human)                                                                                                                                         |
| <b>Research Area</b>       | Neuroscience                                                                                                                                                 |
| <b>Target Names</b>        | AVP                                                                                                                                                          |

## Image

Western blot  
All lanes: AVP antibody at 2μg/ml + Rat gonadal tissue  
Secondary  
Goat polyclonal to rabbit IgG at 1/10000 dilution  
Predicted band size: 18 kDa  
Observed band size: 18 kDa

Immunohistochemistry of paraffin-embedded human breast cancer using CSB-PA11069A0Rb at dilution of 1:100
