

# fimH Antibody

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA362349ZA01ENV                                                                      |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                            |
| <b>Uniprot No.</b>         | P08191                                                                                   |
| <b>Immunogen</b>           | Recombinant Escherichia coli Type 1 fimbrin D-mannose specific adhesin (fimH) (22-300AA) |
| <b>Species Reactivity</b>  | Escherichia coli (strain K12)                                                            |
| <b>Tested Applications</b> | ELISA, WB                                                                                |
| <b>Form</b>                | Liquid                                                                                   |
| <b>Conjugate</b>           | Non-conjugated                                                                           |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, pH 7.4         |
| <b>Purification Method</b> | Protein G                                                                                |
| <b>Isotype</b>             | IgG                                                                                      |
| <b>Clonality</b>           | Polyclonal                                                                               |
| <b>Product Type</b>        | Polyclonal Antibody                                                                      |
| <b>Immunogen Species</b>   | Escherichia coli (strain K12)                                                            |
| <b>Target Names</b>        | fimH                                                                                     |

## Image

### Western Blot

Positive WB detected in Recombinant protein

All lanes: fimH antibody at 1:2000

Secondary

Goat polyclonal to rabbit IgG at 1/50000 dilution

Predicted band size: 59.1 kDa

Observed band size: 59 kDa
