

# PHB2 Antibody

|                            |                                                                                                                                 |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA859937ESR2HU                                                                                                              |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                   |
| <b>Uniprot No.</b>         | Q99623                                                                                                                          |
| <b>Immunogen</b>           | Recombinant Human Prohibitin-2 protein (1-299AA)                                                                                |
| <b>Raised In</b>           | Rabbit                                                                                                                          |
| <b>Species Reactivity</b>  | Human                                                                                                                           |
| <b>Tested Applications</b> | ELISA, WB, IHC; Recommended dilution: WB:1:500-1:2000, IHC:1:20-1:200                                                           |
| <b>Form</b>                | Liquid                                                                                                                          |
| <b>Conjugate</b>           | Non-conjugated                                                                                                                  |
| <b>Storage Buffer</b>      | PBS with 0.02% sodium azide, 50% glycerol, pH7.3.                                                                               |
| <b>Purification Method</b> | Antigen Affinity Purified                                                                                                       |
| <b>Isotype</b>             | IgG                                                                                                                             |
| <b>Clonality</b>           | Polyclonal                                                                                                                      |
| <b>Alias</b>               | Prohibitin-2 (B-cell receptor-associated protein BAP37) (D-prohibitin) (Repressor of estrogen receptor activity), PHB2, BAP REA |
| <b>Immunogen Species</b>   | Homo sapiens (Human)                                                                                                            |
| <b>Research Area</b>       | Signal Transduction                                                                                                             |
| <b>Target Names</b>        | PHB2                                                                                                                            |

## Image

### Western blot

All lanes: PHB2 antibody at 3μg/ml

Lane 1: Hela whole cell lysate

Lane 2: K562 whole cell lysate

Lane 3: MCF-7 whole cell lysate

Secondary

Goat polyclonal to rabbit IgG at 1/10000 dilution

Predicted band size: 34, 30 kDa

Observed band size: 34 kDa

Immunohistochemistry of paraffin-embedded human breast cancer using CSB-PA859937ESR2HU at dilution of 1:100

Immunohistochemistry of paraffin-embedded human colon cancer using CSB-PA859937ESR2HU at dilution of 1:100
