

# TCHP Antibody

|                            |                                                                                                                                                            |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Code</b>        | CSB-PA874804LA01HU                                                                                                                                         |
| <b>Storage</b>             | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                                                              |
| <b>Uniprot No.</b>         | Q9BT92                                                                                                                                                     |
| <b>Immunogen</b>           | Recombinant Human Trichoplein keratin filament-binding protein (1-498AA)                                                                                   |
| <b>Raised In</b>           | Rabbit                                                                                                                                                     |
| <b>Species Reactivity</b>  | Human                                                                                                                                                      |
| <b>Tested Applications</b> | ELISA, IHC, IF; Recommended dilution: IHC:1:20-1:200, IF:1:50-1:500                                                                                        |
| <b>Form</b>                | Liquid                                                                                                                                                     |
| <b>Conjugate</b>           | Non-conjugated                                                                                                                                             |
| <b>Storage Buffer</b>      | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                                                           |
| <b>Purification Method</b> | >95%, Protein G purified                                                                                                                                   |
| <b>Isotype</b>             | IgG                                                                                                                                                        |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                 |
| <b>Alias</b>               | Trichoplein keratin filament-binding protein (Protein TCHP) (Mitochondrial protein with oncostatic activity) (Mitostatin) (Tumor suppressor protein), TCHP |
| <b>Immunogen Species</b>   | Homo sapiens (Human)                                                                                                                                       |
| <b>Research Area</b>       | Others                                                                                                                                                     |
| <b>Target Names</b>        | TCHP                                                                                                                                                       |

## Image

Immunohistochemistry of paraffin-embedded human skin tissue using CSB-PA874804LA01HU at dilution of 1:100

Immunohistochemistry of paraffin-embedded human small intestine tissue using CSB-PA874804LA01HU at dilution of 1:100

Immunofluorescence staining of MCF-7 cells with CSB-PA874804LA01HU at 1:400, counter-stained with DAPI. The cells were fixed in 4% formaldehyde, permeabilized using 0.2% Triton X-100 and blocked in 10% normal Goat Serum. The cells were then incubated with the antibody overnight at 4°C. The secondary antibody was Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).
