

CK2- β (Phospho-Ser209) Antibody

E11-0869A

Catalog Number: E11-0869A

Concentration: 1mg/ml

Swiss-Prot No.: P05412

Other Names: AH119, AP-1, AP1, Activator protein 1, Jun A, Proto-oncogene c-jun, RJG-9, V-jun avian sarcoma virus 17 oncogene homolog, c-Jun, p39

All Sites: Human: Thr231; Mouse: Thr234; Rat: Thr234

Storage/Stability: Store at -20°C/1 year

Form of Antibody: Rabbit IgG in phosphate buffered saline (without Mg^{2+} and Ca^{2+}), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Immunogen: The antiserum was produced against synthesized phosphopeptide derived from human c-Jun around the phosphorylation site of threonine 231 (P-Q-T^P-V-P).

Purification: The antibody was affinity-purified from

rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site.

Specificity: c-Jun (Phospho-Thr231) antibody detects endogenous levels of c-Jun only when phosphorylated at threonine 231.

Reactivity: Human, Mouse, Rat

Applications: IHC: 1:50~1:100 IF: 1:100~1:500
ELISA: 1:10000
