

## NFκB-p105 Polyclonal Antibody

|                                 |                                                                                                                                                     |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Swiss-Prot No.:</b>          | P19838                                                                                                                                              |
| <b>Molecular Weight:</b>        | 105.356                                                                                                                                             |
| <b>Applications:</b>            | WB,IHC,ELISA                                                                                                                                        |
| <b>Reactivity:</b>              | Human,Mouse,Rat                                                                                                                                     |
| <b>Purification:</b>            | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                               |
| <b>Immunogen:</b>               | Synthesized peptide derived from human NFκB-p105 around the non-phosphorylation site of S932.                                                       |
| <b>Specificity/Sensitivity:</b> | NFκB-p105 Polyclonal Antibody detects endogenous levels of NFκB-p105 protein.                                                                       |
| <b>Other Names:</b>             | NFKB1; Nuclear factor NF-kappa-B p105 subunit; DNA-binding factor KBF1; EBP-1; Nuclear factor of kappa light polypeptide gene enhancer in B-cells 1 |
| <b>Storage/Stability:</b>       | -20°C/1 year                                                                                                                                        |
| <b>Source:</b>                  | Rabbit                                                                                                                                              |
| <b>Form of Antibody:</b>        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                             |
| <b>Protein Concentration:</b>   | 1 mg/ml                                                                                                                                             |

For Research Use Only

|                   |                                                                                                                          |
|-------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name:</b> | NFKB1                                                                                                                    |
| <b>Dilution:</b>  | Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/20000. Not yet tested in other applications. |
