|                                 |                                                                                                                                                                                   |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Swiss-Prot No.:</b>          | Q9BYG3                                                                                                                                                                            |
| <b>Molecular Weight:</b>        | 34.222                                                                                                                                                                            |
| <b>Applications:</b>            | IHC,IF,ELISA                                                                                                                                                                      |
| <b>Reactivity:</b>              | Human,Mouse                                                                                                                                                                       |
| <b>Purification:</b>            | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                             |
| <b>Immunogen:</b>               | Synthesized peptide derived from human NIFK around the non-phosphorylation site of T234.                                                                                          |
| <b>Specificity/Sensitivity:</b> | NIFK Polyclonal Antibody detects endogenous levels of NIFK protein.                                                                                                               |
| <b>Other Names:</b>             | MKI67IP; NIFK; NOPP34; MKI67 FHA domain-interacting nucleolar phosphoprotein; Nucleolar phosphoprotein Nopp34; Nucleolar protein interacting with the FHA domain of pKl-67; hNIFK |
| <b>Storage/Stability:</b>       | -20°C/1 year                                                                                                                                                                      |
| <b>Source:</b>                  | Rabbit                                                                                                                                                                            |
| <b>Form of Antibody:</b>        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                           |
| <b>Protein Concentration:</b>   | 1 mg/ml                                                                                                                                                                           |

**For Research Use Only**

|                   |                                                                                                                               |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name:</b> | MKI67IP                                                                                                                       |
| <b>Dilution:</b>  | Immunohistochemistry: 1/100 - 1/300. Immunofluorescence: 1/200 - 1/1000. ELISA: 1/5000. Not yet tested in other applications. |
