

## ApoA-I Polyclonal Antibody

|                                 |                                                                                                                       |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Swiss-Prot No.:</b>          | P02647                                                                                                                |
| <b>Applications:</b>            | WB,IHC,ELISA                                                                                                          |
| <b>Reactivity:</b>              | Human,Mouse                                                                                                           |
| <b>Purification:</b>            | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Immunogen:</b>               | Synthesized peptide derived from the Internal region of human ApoA-I.                                                 |
| <b>Specificity/Sensitivity:</b> | ApoA-I Polyclonal Antibody detects endogenous levels of ApoA-I protein.                                               |
| <b>Other Names:</b>             | APOA1; Apolipoprotein A-I; Apo-AI; ApoA-I; Apolipoprotein A1                                                          |
| <b>Storage/Stability:</b>       | -20°C/1 year                                                                                                          |
| <b>Source:</b>                  | Rabbit                                                                                                                |
| <b>Form of Antibody:</b>        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| <b>Protein Concentration:</b>   | 1 mg/ml                                                                                                               |

|            |                                                                                                         |
|------------|---------------------------------------------------------------------------------------------------------|
|            |                        |
|            | Western Blot analysis of K562 cells using ApoA-I Polyclonal Antibody.                                   |
| Gene Name: | APOA1                                                                                                   |
| Dilution:  | Western Blot: 1/500 - 1/2000. IHC-p: 1/100-1/300. ELISA: 1/20000. Not yet tested in other applications. |
