

RAGE Polyclonal Antibody

E91786

- Catalog Number:** E91786
Amount: 100ul
Background: This gene belongs to the MAP kinase superfamily. The gene was found to be regulated by caudal type transcription factor 2 (Cdx2) protein. The encoded protein, which is localized to epithelial cells in the intestinal crypt, may play a role in growth arrest and differentiation of cells of upper crypt and lower villus regions. Multiple alternatively spliced transcript variants encoding different isoforms have been observed for this gene. [provided by RefSeq, Dec 2012]
Species: Rabbit
Isotype: IgG
Storage/Stability: Store at -20oC or -80oC. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Synonyms: MOK; RAGE; RAGE-1; RAGE1;
Immunogen: Recombinant protein of human RAGE
Purification: Affinity purification
Reactivity: H M R
Applications: WB IHC
Molecular Weight: 48kDa
Swiss-Prot No. : Q9UQ07
Gene ID: 5891

WB 1:500 - 1:2000

IHC 1:50- 1:200

Western blot analysis of extracts of mouse liver cell lines, using RAGE antibody.
