

THPO Polyclonal Antibody

E91825

- Catalog Number:** E91825
Amount: 100ul
Background: Megakaryocytopoiesis is the cellular development process that leads to platelet production. The protein encoded by this gene is a humoral growth factor that is necessary for megakaryocyte proliferation and maturation, as well as for thrombopoiesis. This protein is the ligand for MLP/C_MPL, the product of myeloproliferative leukemia virus oncogene. Mutations in this gene are the cause of thrombocythemia 1. Alternate splicing results in multiple transcript variants of this gene.[provided by RefSeq, Jun 2012]
Species: Rabbit
Isotype: IgG
Storage/Stability: Store at -20oC or -80oC. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Synonyms: ML; TPO; MGDF; MKCSF; MPLLG; THCYT1;
Immunogen: Recombinant protein of human THPO
Purification: Affinity purification
Reactivity: H M R
Applications: WB IHC
Molecular Weight: 38kDa
Swiss-Prot No. : P40225
Gene ID: 7066

WB 1:500 - 1:2000

IHC 1:50- 1:200

Western blot analysis of extracts of 293 celllines, using THPO antibody.

For Research Use Only
