

CD24 Polyclonal Antibody

E92207

- Catalog Number:** E92207
Amount: 100ul
Background: CD24 (known as heat stable antigen) is a small highly glycosylated GPI-linked sialoprotein. It is normally expressed at the surface of most B lymphocytes and differentiating neuroblasts, and it is also up-regulated in a wide variety of cancers. Studies have shown that CD24 functions in the regulation of B-cell apoptosis, leukocyte signal transduction, and leukocyte adhesion. Since it is highly glycosylated, the apparent molecular weight of CD24 could be variable, ranging from 30kd to 70kd. (Ref: Akihiko Sano, MD., 2009) This antibody is special to human CD24.
Species: Rabbit
Isotype: IgG
Storage/Stability: Store at -20oC or -80oC. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Synonyms: CD24A; FLJ22950; FLJ43543; MGC75043;
Immunogen: Fusionprotein of human CD24
Purification: Affinity purification
Reactivity: H
Applications: WB
Molecular Weight: 8kDa
Swiss-Prot No. : P25063
Gene ID: 100133941

For Research Use Only

Jurkat cell line, using CD24 antibody.
