

ELN Polyclonal Antibody

E92723

- Catalog Number:** E92723
Amount: 100ul
Background: This gene encodes a protein that is one of the two components of elastic fibers. The encoded protein is rich in hydrophobic amino acids such as glycine and proline, which form mobile hydrophobic regions bounded by crosslinks between lysine residues. Deletions and mutations in this gene are associated with supravalvular aortic stenosis (SVAS) and autosomal dominant cutis laxa. Multiple transcript variants encoding different isoforms have been found for this gene.
Species: Rabbit
Isotype: IgG
Storage/Stability: Store at -20oC or -80oC. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Synonyms: WS; WBS; SVAS;
Immunogen: Recombinant protein of human ELN
Purification: Affinity purification
Reactivity: H M R
Applications: WB
Molecular Weight: 69kDa
Swiss-Prot No. : P15502
Gene ID: 2006

For Research Use Only
