

PPP2CBPolyclonal Antibody

Catalog Number: E93122

Amount: 100ul

Background: This gene encodes the phosphatase 2A catalytic subunit. Protein phosphatase 2A is one of

the four major Ser/Thr phosphatases, and it is implicated in the negative control of cell growth and division. It consists of a common heteromeric core enzyme, which is composed of a catalytic subunit and a constant regulatory subunit, that associates with a variety of

regulatory subunits. This gene encodes a beta isoform of the catalytic subunit.

Species: Rabbit **Isotype:** IgG

Storage/Stability: Store at -20oC or -80oC. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide,

50% glycerol, pH7.3.

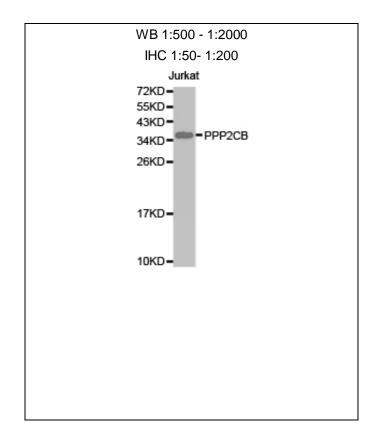

Synonyms: PP2CB; PP2Abeta;

Immunogen: A synthetic peptide of humanPPP2CB

Purification: Affinity purification

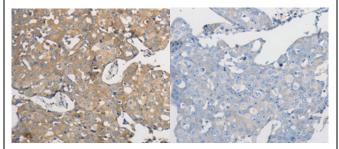

Reactivity: H M R
Applications: WB IHC
Molecular Weight: 36kDa
Swiss-Prot No.: P62714
Gene ID: 5516
