

	<h1>TRIM27 Rabbit pAb</h1>	E 2 1 2 3 3 4 2
--	----------------------------	--------------------------------------

Swiss-Prot No.:	P14373
Altername:	TRIM27
Immunogen:	Fusion protein of human TRIM27
Purification:	Affinity purified
Reactivity:	Human
Other Names:	RFP; RNF76
Cellular localization:	Cytoplasm, Endosome, Nucleus
Relevance:	<p>This gene encodes a member of the tripartite motif (TRIM) family. The TRIM motif includes three zinc-binding domains, a RING, a B-box type 1 and a B-box type 2, and a coiled-coil region. This protein localizes to the nuclear matrix. It interacts with the enhancer of polycomb protein and represses gene transcription. It is also thought to be involved in the differentiation of male germ cells. Fusion of the N-terminus of this protein with the truncated C-terminus of the RET gene product has been shown to result in production of the ret transforming protein.</p>
Source:	Rabbit
Antibody type:	Polyclonal antibody
Isotype:	Rabbit IgG

For Research Use Only

Molecular Weight:	58 kDa
Entrez summary:	TRIM27
Preservative:	-20°C, pH7.4 PBS, 0.05% NaN ₃ , 40% Glycerol
Recommended Dilutions:	WB 500-2000
