

SARS-M Mouse mAb

E2220055

Product name:E2220055

Amount:100ul

Product Name:SARS-M Mouse mAb

Altername:SARS-M

Storage/Stability:Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Immunogen:Purified recombinant fragment of SARS-m protein expressed in E. Coli.

Reactivity:Human coronavirus

Other Names:N/A

Background:SARS (severe acute respiratory syndrome) is caused by a human coronavirus. Human coronaviruses are the major cause of upper respiratory tract illness, such as the common cold, in humans. Coronaviruses are positive-stranded RNA viruses, featuring the largest viral RNA genomes known to date (27-31 kb). The complete sequence of the SARS virus release the coronavirus contains 25 open reading frames. SARS-m is a membrane (M) protein which plays a the key player in virion assembly.

Source:Mouse

Antibody type:Monoclonal antibody

Isotype:Mouse IgG1

Form:Subclonal supernatant.

Recommended Dilutions:WB: 1/500 - 1/2000; IHC: N/A; ICC: N/A; FCM: N/A; Elisa: 1/10000

Clone Number:2H2C4

For Research Use Only
