

	<h1>TRPV3 Rabbit pAb</h1>	E 2 5 1 0 9 9 9
--	---------------------------	--

Swiss-Prot No.:	Q8NET8
Altername:	TRPV3
Immunogen:	A synthetic peptide of human TRPV3
Purification:	Affinity purified
Reactivity:	Mouse
Other Names:	FNEPPK2;OLMS;VRL3
Gene ID:	162514
Cellular localization:	Membrane
Relevance:	<p>This gene product belongs to a family of nonselective cation channels that function in a variety of processes, including temperature sensation and vasoregulation. The thermosensitive members of this family are expressed in subsets of sensory neurons that terminate in the skin, and are activated at distinct physiological temperatures. This channel is activated at temperatures between 22 and 40 degrees C. This gene lies in close proximity to another family member gene on chromosome 17, and the two encoded proteins are thought to associate with each other to form heteromeric channels. Multiple transcript variants encoding different isoforms have been found for this gene.</p>

For Research Use Only

Source:	Rabbit
Antibody type:	Polyclonal antibody
Isotype:	Rabbit IgG
Molecular Weight:	91kDa
Entrez summary:	TRPV3
Preservative:	Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Recommended Dilutions:	WB 1:500 - 1:2000
