

	UBE3B Antibody	E 3 1 2 9 9 3
--	-------------------------	---------------------------------

Antibody type:	Polyclonal
Reactivity:	Human. Predicted: Rat, Mus.
Immunogen:	Recombinant fragment corresponding to 17-161aa of human UBE3B.
Other Names:	; BPIDS; KOS;
Purification:	Purified by antigen affinity column.
Form of Antibody:	Lyophilized power with 1% BSA and 0.02% NaN ³ . Or dissolved in sterile H ² O with 50% glycerol.
Isotype:	IgG
Applications:	ELISA, WB
References:	Basel-Vanagaite L., Dallapiccola B., Estabel J, et al. Borck G. Deficiency for the ubiquitin ligase UBE3B in a blepharophimosis-ptosis-intellectual-disability syndrome. Am. J. Hum. Genet. 91:998-1010 (2012)
Source:	Rabbit
Molecular Weight:	28KD
