

VEGF Antibody

E90126

Catalog Number:	E90126
Amount:	100µg/100µl
Other names:	vascular endothelial growth factor A, VPF, VEGF, MVCD1
Background:	VEGF is a dimeric glycoprotein with structural homology to PDGF. Several variants of VEGF have been described that arise by alternative mRNA splicing. It has been speculated that VEGF may function as a tumor angiogenesis factor in vivo because the expression pattern of VEGF is consistent with a role in embryonic angiogenesis
Form of Antibody:	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.Store at -20 °C.Stable for 12 months from date of receipt
Storage/Stability:	Store at -20°C/1 year
Immunogen:	Synthetic peptide corresponding to a region derived human vascular endothelial growth factor A
Purification:	Immunogen affinity purified
Specificity/Sensitivity:	The antibody detects endogenous level of total VEGFA protein.
Reactivity:	Human, Mouse, Rat
Applications:	WB 1:500-1:1000 IHC 1:50-1:200
Molecular Weight:	28kd
Swiss-Prot No. :	P15692

Western blot analysis of VEGF expression in A431 cells

For Research Use Only
