

	<h1>UBA3 Polyclonal Antibody</h1>	E 9 1 5 1 1 9
--	-----------------------------------	---------------------------------

Swiss-Prot No.:	Q8TBC4
Storage/Stability:	Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Immunogen:	Recombinant protein of human UBA3 (NP_003959.3).
Purification:	Affinity purification
Reactivity:	Human
Other Names:	—
Background:	<p>The modification of proteins with ubiquitin is an important cellular mechanism for targeting abnormal or short-lived proteins for degradation. Ubiquitination involves at least three classes of enzymes: ubiquitin-activating enzymes, or E1s, ubiquitin-conjugating enzymes, or E2s, and ubiquitin-protein ligases, or E3s. This gene encodes a member of the E1 ubiquitin-activating enzyme family. The encoded enzyme associates with AppBp1, an amyloid beta precursor protein binding protein, to form a heterodimer, and then the enzyme complex activates NEDD8, a ubiquitin-like protein, which regulates cell division, signaling and embryogenesis. Multiple alternatively spliced transcript variants encoding distinct isoforms have been found for this gene.</p>
Gene ID:	9039
Source:	Rabbit

For Research Use Only

Antibody type:	Polyclonal Antibodies
Isotype:	IgG
Molecular Weight:	50kDa/51kDa
Recommended Dilutions:	IF 1:50 - 1:200
