

	<h1>PPP1R15A Polyclonal Antibody</h1>	E 9 5 5 9 0
--	---------------------------------------	----------------------------

Background:	This gene is a member of a group of genes whose transcript levels are increased following stressful growth arrest conditions and treatment with DNA-damaging agents. The induction of this gene by ionizing radiation occurs in certain cell lines regardless of p53 status, and its protein response is correlated with apoptosis following ionizing radiation.
Gene ID:	207
Species:	Rabbit
Protein Accession NO:	NP_001014431.1
Immunogen:	affinity purification
Storage/Stability:	PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Form of Antibody:	Each vial at least contains 0.1 mg IgG in 0.1 ml (1 mg/ml) of PBS pH7.4 with 0.1% sodium azide.
Limitation:	For research use only and are not intended for diagnostic or therapeutic use. Isotope: Rabbit IgG
Reactivity:	Human Mouse Rat
Applications:	ELISA, WB; IHC Other applications have not been tested.
Recommended Dilutions:	WB:1:200-2000 IHC:20-200

For Research Use Only
