

Immunotag™ TAF1L Polyclonal Antibody

Antibody Specification	
Catalog No.	ITN1432
Product Description	Immunotag™ TAF1L Polyclonal Antibody
Size	50 µg, 100 µg
Conjugation	HRP, Biotin, FITC, Alexa Fluor® 350, Alexa Fluor® 405, Alexa Fluor® 488, Alexa Fluor® 555, Alexa Fluor® 594, Alexa Fluor® 647
IMPORTANT NOTE	This product is custom manufactured with a lead time of 3-4 weeks. Once in production, this item cannot be cancelled from an order and is not eligible for return.
Target Protein	TAF1L
Clonality	Polyclonal
Storage/Stability	-20°C/1 year
Application	WB,ELISA
Recommended Dilution	WB 1:500-2000 ELISA 1:5000-20000
Concentration	1 mg/ml
Reactive Species	Human
Host Species	Rabbit
Immunogen	Synthesized peptide derived from part region of human protein
Specificity	TAF1L Polyclonal Antibody detects endogenous levels of protein.
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen
Form	Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.
Gene Name	TAF1L
Accession No.	Q8IZX4
Description	TATA-box binding protein associated factor 1 like(TAF1L) Homo sapiens This locus is intronless, and apparently arose in the primate lineage from retrotransposition of the transcript from the multi-exon TAF1 locus on the X chromosome. The gene is expressed in male germ cells, and the product has been shown to function interchangeably with the TAF1 product. [provided by RefSeq, Aug 2015],
Cell Pathway/ Category	Basal transcription factors,

Antibody Specification

Protein Expression	Testis,
Subcellular Localization	nucleoplasm,transcription factor TFIID complex,
Protein Function	function:May act as a functional substitute for TAF1/TAFII250 during male meiosis, when sex chromosomes are transcriptionally silenced.,similarity:Belongs to the TAF1 family.,similarity:Contains 2 bromo domains.,subunit:Can bind directly to TATA-box binding protein (TBP).,tissue specificity:Testis specific, expressed apparently in germ cells.,
Usage	For Research Use Only! Not for diagnostic or therapeutic procedures.
