

DATASHEET

Version: 2016-08-17

Human RANTES Antibody (1E11E6), mAb, Mouse

Cat. No.: A01475-40

Size: 40 µg

Synonyms: Mouse anti RANTES mAb; Mouse anti CCL5 mAb

Description:

RANTES is a chemoattractant for blood monocytes, memory T helper cells, and eosinophils. It causes the release of histamine from basophils and activates eosinophils and binds to CCR1, CCR3, CCR4, and CCR5. It is also one of the major HIV suppressive factors produced by CD8+ T cells. Recombinant RANTES protein induces a dose dependent inhibition of different strains of HIV 1, HIV 2, and simian immunodeficiency virus (SIV). Induced by mitogens, it is T cell and macrophage specific and belongs to the intercrine beta (chemokine CC) family.

GenScript Human RANTES Antibody (1E11E6), mAb,

Mouse is produced from the hybridoma resulting from fusion of Sp2/0 myeloma and lymphocytes obtained from mouse immunized with purified full length recombinant human RANTES protein (Swiss Prot: P13501).

Immunogen: Purified full length recombinant human RANTES protein (Swiss Prot: P13501)

Host: Mouse

Antigen Synonyms: Human

Conjugation: Unconjugated

Fusion Partner:

Spleen cells were fused with SP2/0-Ag14 mouse myeloma cells.

Formulation:

0.5 mg/ml, lyophilized with PBS, pH 7.4, containing 0.02% sodium azide

Clone: 1E11E6

Ig Subclass: IgG1, κ

Specificity: GenScript Human RANTES Antibody (1E11E6), mAb, Mouse detects human RANTES protein.

Purification: Protein A affinity column

Applications:

Western Blot: 0.5–1.0 µg/ml

Other Applications: user-optimized

Species Reactivity: Human. Reactivity to other species is not tested yet.

Reconstitution:

Reconstitute the lyophilized powder with deionized water (or equivalent) to an antibody concentration of 0.5 mg/ml.

Storage:

The antibody is stable in lyophilized form if stored at -20°C or below. The reconstituted antibody can be stored for 2-3 weeks at 2-8°C. For long term storage, aliquot and store at -20°C or below. Avoid repeated freezing and thawing cycles.

Example

Western blot analysis of human recombinant RANTES fusion protein using Human RANTES Antibody (1E11E6), mAb, Mouse (GenScript, A01475, 1 µg/ml). The signal was developed with IRDye™ 800 Conjugated Goat Anti-Mouse IgG. Predicted Size: 36 KD. Observed Size: 36 KD.
