

Mouse B4galt1 Antibody (3C9), mAb, Mouse

PRODUCT INFORMATION

Description

B4GALT1 (Beta-1,4-Galactosyltransferase 1) is a protein coding gene. Among its related pathways are transport to the Golgi and subsequent modification and metabolism. B4galt1 is one of seven beta-1,4-galactosyltransferase (beta4GalT) genes. They encode type II membrane-bound glycoproteins that appear to have exclusive specificity for the donor substrate UDP-galactose. The Golgi complex form catalyzes the production of lactose in the lactating mammary gland and could also be responsible for the synthesis of complex-type N-linked oligosaccharides in many glycoproteins as well as the carbohydrate moieties of glycolipids. The cell surface form functions as a recognition molecule during a variety of cell to cell and cell to matrix interactions, as those occurring during development and egg fertilization, by binding to specific oligosaccharide ligands on opposing cells or in the extracellular matrix.

Specificity

The product is specific for mouse B4galt1. This antibody binds with recombinant B4galt1 protein in ELISA and western blot.

Concentration

0.5 mg/ml, lyophilized with PBS, pH 7.4, containing 0.02% sodium azide. (It may be customized for bulk orders.)

Note

GenScript can customize this product per the customer's request including product size, buffer components, etc.

Reconstitution

Reconstitute the lyophilized antibody with deionized water (or equivalent) to a final concentration of 0.5 mg/ml.

Storage

The lyophilized product remains stable up to 1 year at -20 °C from date of receipt. Upon reconstitution, it can be stored for 2-3 weeks at 2-8 °C or for up to 12 months at -20 °C or below. Avoid repeated freezing and thawing cycles.

Applications

Working concentrations for specific applications should be determined by the investigators. The appropriate concentration may be affected by secondary antibody affinity, antigen concentration, the sensitivity of the method of detection, temperature, the length of the incubations, and other factors. The suitability of this antibody for applications other than those listed below has not been determined. The following concentration ranges are recommended starting points for this product.

Cat. No.: A01889-40

Host: Mouse

Size: 40 µg

Ig Subclass: IgG2b,K

Clone: 3C9

Immunogen: Recombinant Mouse B4galt1

SwissProt: P15535

Gene ID: 14595

Purification: Protein A affinity column

Conjugation: Unconjugated

Version: 07/20/2017

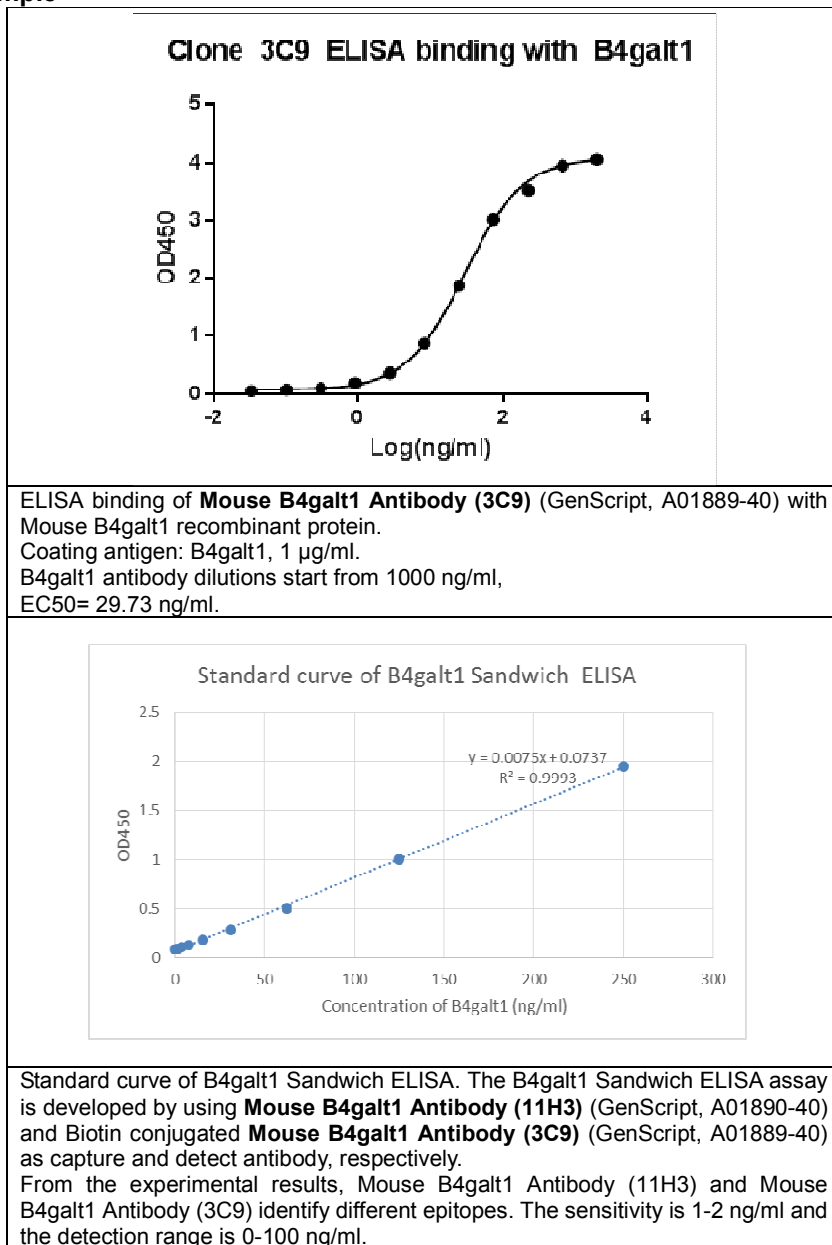

** For non-clinical research use only. **

860 Centennial Ave., Piscataway, NJ 08854, USA

Toll-Free: 1-877-436-7274 Tel: 1-732-885-9188 Fax: 1-732-210-0262 Email: product@genscript.com Web: www.genscript.com

ELISA detection: 0.05-0.1 µg/ml
 Western blot: 1 µg/ml
 Other applications: user-optimized

Example

** For non-clinical research use only. **

860 Centennial Ave., Piscataway, NJ 08854, USA

Independent validation of **Mouse B4galt1 Antibody (3C9)** (GenScript, A01889-40) and **Mouse B4galt1 Antibody (11H3)** (GenScript, A01890-40) with Mouse B4galt1 recombinant protein.

Lane 1: 50 ng Mouse B4galt1 recombinant protein

Lane 2: 25 ng Mouse B4galt1 recombinant protein

Lane 3: 10 ng Mouse B4galt1 recombinant protein

Lane 4: 50 ng Mouse B4galt1 recombinant protein

Lane 5: 25 ng Mouse B4galt1 recombinant protein

Lane 6: 10 ng Mouse B4galt1 recombinant protein

Primary Antibody:

Lane 1~3: Mouse B4galt1 Antibody (3C9) (GenScript, A01889-40) 1 µg/ml

Lane 4~6: Mouse B4galt1 Antibody (11H3) (GenScript, A01890-40) 1 µg/ml

Secondary Antibody:

Goat anti-Mouse IgG (H&L) [IRDye⁸⁰⁰] (Licor, 926-32211) 0.125 µg/ml

** For non-clinical research use only. **

860 Centennial Ave., Piscataway, NJ 08854, USA
