

**DATASHEET**

Version: 2016-08-18

**EGFRvIII peptide (PEPvIII)****Cat. No.:** RP20356**Size:** 1 mg**Description:**

The epidermal growth factor receptor variant III (EGFRvIII) is a consistent tumor-specific mutation that is widely expressed in glioblastoma multiforme (GBM) and other neoplasms. As such it represents a truly tumor-specific target for antitumor immunotherapy.

**Sequence (one-letter code):**

LEEKKGNYVVDHC

**Sequence (three-letter code):**

{Leu}{Glu}{Glu}{Lys}{Lys}{Gly}{Asn}{Tyr}{Val}{Val}{Thr}{Asp}{His}{Cys}

**Molecular Weight:** 1,634.82**Purity:** > 95%**Storage:**

Store at -20°C.

**Note:**

\*For Non-Clinical Research Use Only \*
