

Rabbit anti-LASV GP pAb

Catalog #: 0307-001

Lot #: 1807005

Immunogen: Peptide sequence specific to Lassa virus (LASV) glycoprotein (GP).

Description: Affinity purified rabbit polyclonal antibody reactive to LASV GP in Western blot and ELISA.

Supplied: 100 µg is supplied at a concentration of 0.457 mg/mL in PBS with 0.02% Sodium azide.

Raised in: Rabbits

Purification: Antibody is affinity purified using immobilized immunogen.

Clonality: Polyclonal

Relevance: The antibody can be used for detection of LASV GP.

Recommended Dilutions:

ELISA: Assay-dependent dilution

WB: Assay-dependent dilution. Internal QC demonstrates strong detection of at least 50 ng of LASV recombinant GP (rGP) with a use dilution of 100 ng/mL of the antibody.

Storage: 2-3 weeks @ +4°C; long term @ -80°C

Cross Reactivity: Not tested

Related Products:

IBT provides a wide array of virus specific antibodies, recombinant proteins and other infectious disease reagents. Please see our website, www.ibtbioservices.com for more details.

Western Blot Data:

Lane 1: 50 ng LASV rGP
Lane 2: 100 ng LASV rGP

Western blot was detected under reduced conditions with anti-LASV GP pAb at 100 ng/mL and visualized using an anti-rabbit IgG-HRP conjugate and TMB membrane substrate. LASV recombinant GP is visualized as a broad band at ~60 kDa.

ELISA Data:

Rabbit anti-LASV GP Antibody (µg/mL)	OD 650 nm
10.000	3.791
3.162	3.644
1.000	3.592
0.316	2.714
0.100	1.703
0.032	0.791
0.010	0.317
0.003	0.149
0.001	0.091
0.000	0.077

LASV recombinant GP was diluted to 1 µg/mL in PBS for plate coating. Anti-LASV GP antibody was serially diluted semi-log from 10 µg/mL and incubated on the coated plates. Washed plates were detected with anti-rabbit IgG-HRP conjugate and TMB substrate. OD₆₅₀ is reported above.

Intended for research use only, not for human, therapeutic, or diagnostic applications.
